The Gateway to the Olympics

Dallas, TX - Humphreys & Partners Architects, L.P., based in Dallas, announced today that the Gateway to the Olympics residential site has opened for occupancy. This project by Humphreys consists of the residential portion of the Gateway development in downtown Salt Lake City. Two 8-story rental apartment towers, including 330 units, and a 14-story condominium tower of 152 units to be completed in 2002.

The Gateway project is across from The Delta Center, home of the Utah Jazz. The development is a major mixed-use project of housing, retail, dining, cultural and entertainment. The centerpiece is the historic Union Pacific Railway Station.

Humphreys & Partners is the architect for the residential portion, Prowswood and Simpson Housing Solutions are the developers. The Boyer Company is the master developer, and the Jerde Partnership is the master planner.
